Subject: Draft LNFH NPDES Permit public notice and comment period open today
Attachments: DAVE IRVING 12-16-16 LETTER.pdf; 121316 Draft Permit to PN with Appendices.pdf; 121316 FS for PN.pdf

We're sending a hard copy letter, along with the draft permit and fact sheet, out to Dave Irving today. I wanted to send you electronic copies of the documents as well.

The announcement is up on our website at <https://www.epa.gov/npdes-permits/proposed-permit-leavenworth-national-fish-hatchery-washington>

A legal ad announcement will be published in the Wenatchee Paper today and in the Leavenworth Echo next Wednesday.

Ecology is still working on the preliminary 401 certification, and they will run a separate public notice and comment period on their cert. Breean, a hard copy letter went out to Ms. Park at Ecology. I'll forward that to you next.

I am starting a new position with the Agency in January – I am going to be the Manager of the NEPA Review and Sediment Management Unit in our Office of Environmental Review and Assessment. There will be another permit writer working with you after the public comment period closes, but I'll be in touch with them as EPA works to finalize your NPDES permit after the comment period closes. If you have any questions, feel free to call me. (b)(6)

Take care and enjoy the holidays. All the best for 2017.

Jill
